

(Porter - Ruth - Bernice) - ^{Father's name -} June 25, 1980.

Dear Muriel,

I am really ashamed not to have acknowledged your letter of April 21 before now. I was so pleased to get all this information, and then I put it with other odds and ends of papers, expecting some day to lay it all out and try to get some order to it all. I will yet - but between my husband's operation the first of the year and trying to unpack a lot of boxes and get things distributed around just haven't set myself down to doing this particular job.

There was a book on the Hubbells that a James Shay who married a cousin of mine, ^{Vivian Hubbell} from Seymour, had, & I saw it once, but he wanted it back, so it was returned to him. Hope he gives it to a Hubbell, as Vivian died, & he has remarried. I never kept very good track of the family, and it's hard to go back and reconstruct.

I do thank you so much for taking the time to write this all out

and it gave me the information
on Burton Hubbell that I never knew.

The Historical Society in Seymour
just opened their new quarters, ^{the 2nd} and I
presume the picture that Burton
painted of the local falls on the Naugatuck
River in Seymour is now hanging there.
Before we left Seymour last November for
our son's home in Tucson, I gave the picture
to a friend for safe keeping and she was
to present it to the Society when they had
a good place to hang it.

Sincerely

Marguerite A. Triffitt
