

List of Parish Records Searched

The following is a list of parishes whose registers have been searched for any variation of the spelling of Hubball (most searches were wild card searches using either Hub* or Hob* as the search term). The data generated from this study is discussed in the 2017 Annual article titled "The Hubballs of the Severn River Valley of England", written by Richard W. Hubble that can be found under the Publications / Annual tab. To assist the reader, the data generated from this search is displayed on a map of the parishes of Shropshire, Staffordshire and Worcestershire counties. The map is titled "Distribution of Hubballs in the Severn River Valley: 1500 to 1799". In addition, three PDFs listing over 1000 individual Hubballs from the parishes of the 3 counties is also available.
