

# Hubbell Society Museum & Library

## ♣ HALL OF FAME ♣

### 2019 INDUCTEE

## RICHARD WOOD HUBBLE

#[16285]

Richard Wood Hubble (Rick) has been a member for over 25 years. Since taking on the role of editor in 2010, he has delighted the society readership with articles three times per year. He has enriched the society greatly with thoughtful and scholarly research. In the past 9 years he has laid out 9 Annuals totaling over 500 pages, and 18 Family Notes with more than 120 pages. He has written more than 30 original articles for the Family Notes and another 13 more scholarly Annual articles greatly enhancing what we know about our family including such topics as the *Patent Ring by Generation* in 2013, *Laporte Hubbell the clock maker* in 2011, and *Hubbells of the Severn River Valley* in 2017. Other fascinating stories covered circuses, rodeos, military, and countless notes of interest.

In addition to the job as Editor he has contributed to the research corpus of the society helping disprove some myths, explored new theories of our origins, and archived the materials on the ever-richer website as a source for others to do family research. Traveling to England, he has examined ancient documents in person for insights on connections to our immigrant ancestor, Richard Hubball, as well as relying on scanned digital archives.

He has also served for four years on the society's Executive Committee, proving a solid sounding board and reasoned voice on the intricacies of running the society.

For these reasons we recognize Rick, Richard Wood Hubble with the 2019 Hall of Fame Award.
