

Cemetery Reinterments - Gilboa, Schoharie County, NY

Submitted Jan 31, 1997 by Joyce Riedinger, Schoharie Co., NY USGenWeb Coordinator.

The main street of the village of Gilboa was razed in October of 1925. Its site became part of the artificial lake, five miles long and holding twenty-two billion gallons of water, which provides water to the City of New York. The years of 1918 through 1921 saw the removals and reinterments, from the cemeteries of Gilboa, to make way for this new reservoir.

Many thanks go to Joel A. Miele, Sr., P.E. Commissioner, The City of New York Department of Environmental Protection, for granting permission to publish this data regarding these removals and reinterments. Thanks also to Edward J. Stanton, A.C.E. Manager, Office of Claims, who was responsible for this compilation, and who provided us the disk with which to work.

In the listing for this page, it has been sorted alphabetically by name of occupant of grave. Using the parcel no. next to your ancestor, refer to the list below to find name of cemetery of original interment. Since the name of the party responsible for the removal is given along with his relationship to the occupant of grave, this listing can be extremely valuable for genealogical research. All Unknowns are also included here in that you may wish to search to see if grave numbers next to your ancestors are an Unknown. It's always a possibility that part of your family may be one of the Unknowns. I have kept the seven columns together so all information is available at one reading. You may have to scroll horizontally to read the end columns.
