

Antique Patchwork Quilt Top 1880
by Sally Maria Hubbell Wellman (ME# 1813)

This quilt was made by my husband's great great grandmother. Sally was born in 1800 married in 1817 & made the quilt when she was 80 years old. It is stained and needs repair. (for sale on ebay-2014)

I have had advice from a very knowledgeable (& kind) quilter. She has had antique quilts restored by Amish folks. She said not to wash quilt until it is quilted. She has had very good success soaking in Oxiclean. (calls it a miracle worker). I have taken a photo outside on the clothesline which someone suggested. It is very windy (really beating the quilt) so only got one section.
