

## **Deny the Murder Story.**

**LAKESIDE, Neb., July 14.**—A coroner's jury, after investigating the death of Wm. Hubble, whose body was found near here, brought in a verdict that the man "came to his death by an unknown cause." People here believe the affair an accident, as the corpse was lying near the railroad track, with the head crushed, and think the story first sent out that a murder had been committed does the community an injustice.
