

FAIRFAX NOTES. — The Woodlawn Farmers' Club was delightfully entertained on Saturday afternoon at the home of Mr. Harry Pierson and the Misses Pierson.

Mr. Harry Pierson has taken permanent employment with the Chesapeake & Ohio R. R. Company, in Richmond.

Mr. Frank B. Hubble, vice-president and general manager of the Falls Church Electric Railway, is making great improvements along the road, pushing ahead the contemplated extensions, and he is sanguine to have the cars running as far as Dunn-Loring within three months' time. The rails on the road are now being rivetted and connected together with copper wire in order prevent all possible waste of electric power.—[Herald.]
