

Soldiers and Sailors' Reunion.

To honor Appomattox the soldiers and sailors of Lakehurst, N. J., met in Red Men's Hall early in April last. Although the evening was stormy, the Reunion was a great success. An unusually interesting program was provided, which included many of the old songs so dear to us all, "Tenting To-night," "Just Before the Battle," etc., and some excellent recitations. "Sherman's March to the Sea" was charmingly given by Miss Emily Holman, Gen. John A. Rawlins's granddaughter. The orator of the occasion was the Rev. Frank Van Hise, who gave some incidents of the great battle of Gettysburg. Everyone was much interested in the knapsack and canteen displayed during the evening, which had been carried by Comrade **Frank Hubble**, and the occasion ended with a bountiful supper provided by the ladies.

A Hypodermic Injection Fluid That Cures Cancer.

An eminent physician of the world, after 12 years of study, has discovered the world, a cure for cancer. Literature mailed to those
