
MANY LIVES SAVED BY A DREAM.—At Science Hill, Ky., on the Cincinnati Southern road, near Somerset, **E. R. Hubble** and family, consisting of himself, wife and three children, went to sleep last Wednesday night supposing everything secure. During the night the building caught fire and was soon in flames. The oldest child, a girl of 13, had dreamed of a terrible railroad accident, and awoke to find the room filled with smoke and flames darting through the cracks of the doors and windows. She aroused her father in time and all escaped.

Morrison, in the house, offered a resolution calling on congress to pension the South Cumberland battalion in actual service for the union in 1861-1865. When the General Assembly convenes in special session to-morrow, for the purpose of considering the matter of a new site for the \$1,000,000 Capitol, there will be six, possibly seven, vacant places in the lower house, and one or two in the Senate. Hon. William Carson Black,

of Barbourville, Candidate for Republican Nomination for State Senator at the Primary Election in August.

As a legislator from the Knox-Whitley district, and Minority Leader of the House a few years ago, Dr. Black worked for better school laws, better roads temperance legislation equitable taxation, a just redistricting law, increased appropriation for State University—the people's protection of Republican principals and interests of the people.

His bills for the payment of common school teachers while in attendance at county institutes, Good Roads resolutions, encouragement of farmers institutes, railroad police protection for the traveling public, Lincoln bill in opposition to the Goebel bill, **paying heirs of the Hon. R. D. Hubble, late Representative from the county of Pulaski**—a new precedent and a new law, are some of the more prominent measures which became laws or were given flattering consideration by the daily press, if not by an overwhelming Democratic House.

If you want to vote for a Republican who has been tried and proved himself a student to the needs of his people and in sympathy with every pulse of its religious, economic, social, educational, commercial uplift and community asset;

If you would have a Senator who can and will do things, who isn't feathering his own nest for future political preferment, who will be fearless enough to stand and vote for legislation that will place Kentucky in the forefront of states, that capital may come into our midst and labor find employment, that the wheels of machinery might hum, the hidden nuggets of wealth be uncovered and a bright blaze continually glowing in the fire of hope and prosperity, then tie your string to William Carson Black.

This stalwart son of Knox county (and by the way that county has not been represented in the Ky. Senate for 40 years) is a parliamentarian, hard worker, fearless in discharge of his duties, as his record as Minority Leader of his party will bear evidence.

He will endorse the policies of the Republican party which it will give to suffrage of the Commonwealth for consideration and appealing approval (doesn't think that any man is bigger than his party) and will advocate all good roads, school taxation, workman's compensation, temperance, redistricting and all other legislation which his party and people demand and require for its moral, educational and business improvement.

Dr. Black, as regimental Surgeon, spent **FOUR MONTHS ON THE FLOOR AS HIS SOFT DOWNY COUCH** during the Goebel-Taylor trouble without remuneration or complaint. He would have you return him to the State Capital in the capacity of a State Senator that he might occupy a **MORE COMFORTABLE BERTH** for which he promises you his best efforts and most arduous labor.

Pulaski county Republicans will remember Dr. Black most loyally, not only for the **R. D. Hubble legislation**, but for his whole record and ability to accomplish legislation.

W. W. CECIL.
